APRIL 11-15, 2016

Taipei International Convention Center (TICC) & Taipei World Trade Center Exhibition Hall 1
Taipei, Taiwan

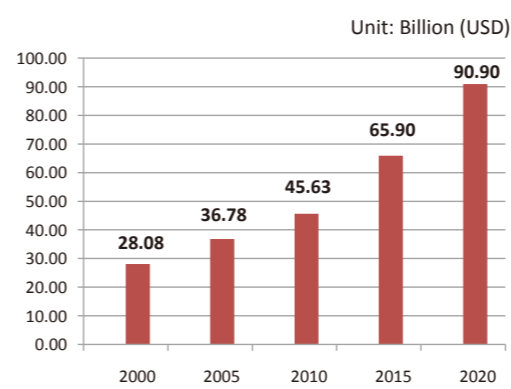

Resource from Taiwan International Water Show

WFC 12 Exhibition Show

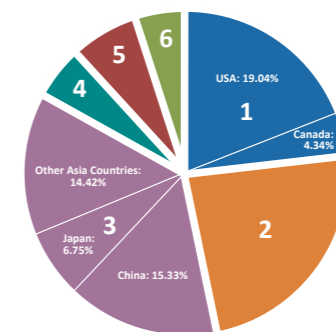

The Best Opportunity to Early Access Asian Filter Market

The characteristics of global filter market are in high demand and accelerating growth. As per the report from The Freedonia Group, Inc., the market is divided into three categories, including internal combustion engine and related, liquid and gas filtration products. Ongoing investments in water, wastewater, and power generation infrastructure will also boost the need for filters, particularly in developing countries such as Indonesia and India. Therefore, this market size increases to USD 65.9 billion in 2015 and is expected to achieve USD 90.9 billion - 37.9% growth in 2020.

The US, China and Japan are the major national markets for filters, and it is predicted they will be with 19.04%, 15.33% and 6.75% of global demand respectively in 2015. Also, China filter market will be almost as large as the US by 2018 and will surpass the US before 2020.
